A while back, we briefly discussed this site (attached) regarding aquifer exemptions etc... I thought I would forward you the letter we sent out on this site, as soon, we will need to revisit some issues on this site. Thanks,

Joel Coffman *Groundwater UIC Office*

George:

EPA Region 9 has completed Technical Review of your Permit Renewal Application submitted by ERM. Attached are our comments regarding the review. If you have any questions, please call me at (415) 972-3530.

Thankyou,

Joel Coffman Groundwater UIC Office

Subject: Sunrise - UIC Permit Renewal

Good morning Joel,

Sunrise has completed our responses to the Notice of Deficiencies and has prepared the revised UIC Permit Renewal application and the Well Abandonment Work Plan for the underperforming well. We have also secured new surety bonds at 3x the estimate to abandon the respective wells. Today you will receive the permit renewal package and the Well Abandonment Plan via Fed Ex from ERM. Copies of the surety bonds are not in the renewal package but are attached herein. Hard copies have been sent via Fed Ex to your attention; you will receive them tomorrow.

Please contact me or Jeff Hamilton or ERM if you have questions. We look forward to your review.

Best Regards,

George Piantka

NRG
